Jennifer is currently touring in support of her new EP, *Heavyelectromagnetic-soularpoeiticjunglehop*, co-birthed by Grammy nominated producer Spontaneous. In this project, Jennifer is giving you some of what you love by Sade, a lot of what you need from Lauryn, the warmth and conversational energy of Jill, and the mystery of Dido. Jennifer has honed her remarkable stage presence performing with Medusa's Feline Science and Gift of Gab (Blackalicious). This June Jennifer is joining Gab on a tour of over 30 European cities before returning to the West Coast in July. Hands down, Jennifer Johns is a heavyelectromagnetic force to be reckoned with.
